Email:-m.snirmal1994@gmail.com Phone:-9566565270

Summary:

Dynamic and detail-oriented .NET Developer with 2 years of experience in designing, developing, and maintaining robust web and desktop applications. Proficient in C#, ASP.NET, .NET Core, MVC, and SQL Server, with a strong understanding of object-oriented programming principles and software development life cycle (SDLC). Skilled in analyzing business requirements, creating efficient solutions, and delivering high-quality code within deadlines. Adept at working in collaborative team environments and eager to leverage technical expertise to contribute to innovative projects.

Technical Skills:

- **Programming Languages:** C#, ASP.NET, .NET Core, LINQ
- **Web Technologies:** HTML, CSS, JavaScript, jQuery, Bootstrap, MVC
- **Database Management:** SQL Server, MySQL, Entity Framework, ADO.NET
- **Tools and IDEs:** Visual Studio, Git, Azure
- **Software Development:** Object-Oriented Programming (OOP), RESTful API Development, Microservices Architecture
- **Debugging and Testing:** Unit Testing, Debugging Tools, Code Reviews
- **Version Control:** Git, GitHub, Bitbucket
- **Other Skills:** Problem-Solving, Team Collaboration, Agile/Scrum Methodologies

Experience:

Software Engineer

Cognitive Mobile Technology Pvt Ltd (Aug 2023 – Present)

- *Designing, developing, and deploying web applications using C#, ASP.NET, and .NET Core.*
- *Collaborating in Agile teams to deliver high-quality software solutions.*

Junior Software Engineer

Cognitive Mobile Technology Pvt Ltd (Aug 2022 – Aug 2023)

- *Assisted in building robust backend systems and improving application performance.*

Trainee-Software Developer

Soft logic Technology Pvt Ltd (June 2021-Aug 2022)

- *Assisted in building robust backend systems and improving application performance.*

Sales Head

Agni Oxygen Gas (Aug 2018 – June 2021)

- *Managed sales strategies, customer relationships, and achieved business growth targets.*

Education:

Gojan School of Business and Technology – Anna university ,Chennai.

- M.E. Engineering Design 2016-2018

T.J.S. Engineering College – Anna university, Chennai.

- B.E. Mechanical Engineering 2011-2015

St Mary's Higher Secondary Matriculation School

- Matriculation State Board Syllabus 11th and 12th Std – 2011-82%

R.M.K Higher Secondary Matriculation School

- Matriculation State Board Syllabus up to 10th Std – 2009- 62%

Certification :

- **Full stack developer Certification** - Softlogic – Chennai- Aug 2022 to Dec 2022

Achievement:

- Awarded *Best Project* for final-year AI Drone Technology project on pollution diagnostics.
- State level runner up in shuttle badminton

Projects:

1. **Project Name:-**Clearance Management System

Client :Indian Railways

Project description:- *To develop a standalone software package to cater for clearing of “ODCs” using MMD, MCDs and route, based on specific requirement of Railways on a “turnkey” basis i.e. Design, Develop & Deliver*

2. **Project Name:-** Capture data , parameters, conditions and create comprehensive output

Client :Indian Railways

Project description:- *Capture various data, parameters, conditions & stipulations across different distinct subject areas in order to ascertain a load as to an ODC or otherwise and if so, to identify MCDs based on the routes, to arrive at the clearances for each MCD and to create a detailed and comprehensive output including clearance diagram with output in ‘pdf’ mode*

3. **Project Name:-**CyBot Web Page

Client :CyBot

Project description:- A web page designed for CyBot to enhance their online presence. This project involves creating a user-friendly interface, responsive design, and integration of modern web technologies to effectively showcase the company's offerings.

4. **Project Name:** Job Portal and Resume Builder

Client: Memorial Sloan Kettering Cancer Center, New York

Description:

Developed a comprehensive job portal integrated with a resume builder feature, designed to streamline the recruitment process and enhance user experience. The platform allowed users to create, customize, and manage resumes while enabling employers to post jobs, filter applications, and communicate with potential candidates efficiently.

Key Responsibilities:

- Designed and implemented core features using C#, ASP.NET, and SQL Server.
- Built a dynamic resume builder using a combination of JavaScript, jQuery, and Bootstrap.
- Developed RESTful APIs to enable seamless data exchange between modules.
- Optimized database queries and implemented indexing for improved performance.
- Collaborated with cross-functional teams using Agile methodologies to meet client requirements.
- Ensured application security and compliance with industry standards.

Tools & Technologies Used:

C#, ASP.NET, SQL Server, JavaScript, jQuery, Bootstrap, Visual Studio, Git, Azure DevOps.
